ISTA Sexuality and Consciousness 2011-2012 Tour World Tour

Spiritual-Sexual Shaman Baba Dez, internationally renowned for his talks on Traversing the Cutting Edge of Spiritual Sexual Shamanism and Sex Magic, will be hosting talks, conferences and trainings in North and South America, Europe, South Africa, India, Thailand, Australia and New Zealand.

Spiritual Sexual Shamanism

Baba Dez shares foundational information with energetic transmissions and exercises for the activation and integration of Spiritual Sexual Energy. In shamanic terms, this integration is core to manifesting your deepest dreams and desires into reality. The talks and sessions explore how ingrained cultural guilt, shame and fear can limit and control our individual potential for a vibrant, joyful life experience. With profound clarity, he trains people in experiencing a conscious connection with their inner Masculine/Feminine aspects, and explains how this leads to living in freedom and bliss. This information helps people to develop and strengthen their ability to support themselves and all humanity in the evolution of consciousness.

Sex Magic

Through talks, conference and trainings, hosted by the International School of Temple Arts (ISTA), teachers share the tools and support for reclaiming and activating the Emotional Body. This is also known as the Divine Feminine or in shamanic terms, the engine of manifestation. Participants are guided step by step through The Shaman Method of Sex Magic as described in Baba Dez's book, Sacred Sexual Healing. This ritual can be performed at each individual's discretion: solo, with a partner, or with rotating partners puja style. (Trainings and talks are all fully clothed.) These are fun, interesting, and interactive events with a strong emphasis on communicating and respecting individual boundaries and desires. People are free to experience and explore authentic intimacy, safety, and sex magic.

Fully Integrated Spirituality

Over the last several years more than a few prominent spiritual leaders and teachers have been reviewing with me their personal lives and practices. With so much cultivated heart and mind consciousness the realization hits them, "There is a huge hole in my life and teachings". The most ignored, denied, misunderstood or bypassed area of spiritual exploration is the territory around sex and emotion.

Concurrently, many sex positive community leaders and prominent swingers are also exploring what can bring more intensity to their activities and interaction. With so much physical passion and embodied experience eventually the question arises that “there must be something more”

Together in this evening talk we will explore with heart and consciousness the information and practices around the topics of Conscious Evolution, Embodied Presence, Power with Consciousness, Sexual Integration, Spiritual Alchemy, and Sex Magic. In the second “Playshop” half of the evening, at each individuals discretion; solo, with a partner, or with rotating partners puja style, we will explore with body, heart, and feeling what we discussed in the Talk.

When we understand the importance and benefits of a Fully Integrated Spirituality, we can clearly see the next step on our path. Join us for a fun, interesting, and interactive evening with no nudity and a strong emphasis on communicating and respecting individual boundaries and desires.
